Frequently Asked Questions

1. I plan to attend the End-of-Year Revision Lectures. Are these books suitable for me?

Yes. The books and revision lectures complement each other, but are sold separately. Therefore, if you are planning to attend the revision lectures, then it would be beneficial to purchase the book(s) as well.

2. If I attend the lecture, do I receive a copy of the book? Or, do I purchase the book and lecture separately?

As mentioned in Question 1, the books and revision lectures are sold separately. Please note that in previous years, the books and lectures were sold as a package. This year, due to popular demand, the books are being sold separately from the lectures. This allows students to obtain a copy of the book(s) and begin their revision earlier in the year.

If you register for the lecture, then you will not receive a copy of the book. If you wish to obtain a copy of the book, then you should purchase this separately.

3. I am ordering only one book. Am I eligible for a cheaper postage rate?

Unfortunately, we cannot offer cheaper postage rates for smaller orders. Postage costs are determined by Australia Post, who charge the same postage fee for one book as they do for 20 books.

4. Am I able to pick-up my order?

Unfortunately, it is not possible to arrange for the pick-up of your order.

5. I am ordering three copies of the Specialist Maths Book and three copies of the Mathematical Methods Book. Since I am purchasing six books in total, am I eligible for the discounted price of \$55 per book?

Yes, the discounted price of \$55 requires a minimum of six books to be purchased. It does not matter whether the books are for Mathematical Methods, Specialist Mathematics or a mixture of both.

6. There are more than 20 people in my group and the 'Order Form' only has space for a maximum of 20 people. What should I do?

Please print additional copies of the 'Order Form' so that all of the people in your group can be included – for example, if you have 35 people in your group, then you would print two 'Order Forms'. Only one payment would need to be made for the entire group. The \$15 shipping rate would still apply for the entire order.

7. How does the online payment via credit card work?

Your credit card details are processed by PayPal, which is a company that specialises in online payments. Only confirmation of payment and NOT your credit card details are forwarded to Derrick Ha Student Coaching Services.

8. I have a group of only five people, but one person is ordering both the Mathematical Methods and Specialist Maths Books. Since our group is purchasing six books in total, are we eligible for the discounted price of \$55 per book?

Yes, the discounted price of \$55 requires a minimum of six books to be purchased. It does not matter how many people are in your group. It is the total quantity of books that determines the pricing.

9. Do we make one payment for our entire group or should each person pay individually?

Please make one payment for the entire group.
